

## **Regina Gasselsdorfer, Obedience Director of the OVPDC**

While relatively new to the pointing dog world, Regina has loved and owned dogs all her life. Regina started her love for obedience with her Standard Poodle, Rex, and continued with her Vizsla, Jasper, with whom she is working on the utility title. Her love for field work started when she adopted her first Wirehaired Vizsla, Maika. She continues working on titling her dogs in obedience, field tests, water tests and NAVHDA. All this in the interest of keeping her beloved dogs occupied both in body and mind and showing the versatility of her Wirehaired Vizslas. Hailing from Alexandria, ON, Regina has a deep connection with the outdoors. Since her retirement she prefers to spend her time in the fields and woods with her dogs. Regina firmly believes an obedient dog will result in a strong connection with the owner. Regina is looking forward to providing training sessions that will help owners obtain the control and connection needed for a partnership we all look for between us and our furry companions.
